(54) PORTABLE RADIO TELEPHONE SET

(57)Abstract:

PURPOSE: To realize a portable radio telephone set capable of exactly informing a user of call-incoming.

CONSTITUTION: To one end of a hand strap 6, an alarm 7 for informing the use of the call-incoming is connected and the other end is connected to the main body 1 of the telephone set with a connector 8. The alarm 7 is electrically connected to the main body 1 of the telephone set through the cable of the hand strap 6. It is possible to put only the alarm outside while the main body is housed in a bag, etc., so that the user can exactly be informed of call- incoming.

LEGAL STATUS

[Date of request for examination]

22.09.1994

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

2616462

[Date of registration]

11.03.1997
